Sakshi Kothari

Data Analyst

London, UK | +44 7823 800782 | srkothari10@gmail.com | LinkedIn | GitHub

SUMMARY

Data Analyst with proven experience in finance and business analytics, leveraging **Python, SQL, and Power BI** to deliver actionable insights. Skilled in automating workflows, **building scalable data pipelines**, and visualizing complex datasets, achieving up to **40%** reduction in manual reporting effort. Adept at translating data into strategic decisions and communicating insights effectively to stakeholders.

CORE SKILLS

- **Programming:** Python (Pandas, NumPy, Scikit-learn), SQL (PostgreSQL, CTEs)
- **Data Analysis & BI:** Power BI (DAX), Tableau, Excel (Power Query, Pivot Tables), KPI Tracking
- **Data Engineering:** ETL Pipelines, Data Modelling, APIs, Data Validation
- **Machine Learning:** Regression, Classification, Feature Engineering
- **Cloud & Tools:** Google Cloud, AWS (Spark basics), Git
- **Domain Expertise:** Financial Analysis, A/B Testing, Data Storytelling, Stakeholder Communication

EXPERIENCE

Finance and Tech Intern – Beko Europe- Peterborough, UK *Feb 2026 – Present*

- **Financial variance analysis:** Analysed Gross Profit (GP%) fluctuations across business units to identify key drivers and support data-driven decision-making for finance stakeholders.
- **Reporting process optimisation:** Automated weekly reporting workflows using Power BI and Excel, reducing manual effort and improving turnaround time and accuracy.
- **Business performance analysis:** Analysed financial and operational data to identify trends and deliver actionable insights for performance improvement.

AI & Data Intern – YCX - Remote / London, UK *Apr 2025 – Aug 2025*

- **Data pipeline automation:** Built automated data pipelines using Python to extract and validate multi-source datasets, reducing manual data preparation by **40%**.
- **Workflow efficiency improvement:** Developed data enrichment workflows that reduced processing time from hours to minutes, enabling faster reporting and analysis.

PROJECTS

E-Commerce Customer Behavior | **Business Intelligence**

- Developed end-to-end analytics pipeline (**Python, SQL, Power BI**) for **10K+** e-commerce transactions, identifying churn drivers and retention patterns.
- Conducted customer segmentation and calculated lifetime value (LTV), highlighting top **15%** high-value customers.
- Delivered actionable insights that informed targeted marketing campaigns, enhancing retention.

Profitability & Performance Analysis | **Predictive Analysis & BI**

- Analysed **12M+** sales and **2M+** purchase records to build a vendor-product profitability model, tracking margin%, GP, and stock turnover.
- Identified **198** high-margin, low-sales products, enabling targeted promotions that increased revenue potential.
- Detected **66%** supplier concentration risk, supporting procurement diversification and risk mitigation strategies**.**

EDUCATION

Queen Mary University of London ***London**, UK*

*Master's Big Data Science (**Distinction**)* *Sep 2025*

Relevant coursework: Machine Learning, Statistical Modelling, Data Visualisation, Cloud Computing

SIES College Of Science, Commerce and Arts ***Mumbai**, India*

*BSc Computer Science (**Distinction - 9.7/10 CGPA**)* *May 2024*

CERTIFICATIONS

- **Business Intelligence with Power BI and Tableau** – Udemy (2024)
- **SQL Associate** – DataCamp (2025)

Sensitivity: Internal / Non-Personal Data
